Motivational Speaker and Author

Speaking to Motivate the World

My story...

Gary grew up in the rough inner-city of Jersey City, NJ. However, this tough environment did not influence his determination to succeed. Gary's strong familial base helped him avoid being a statistic like so many others in his community.

After earning a Master's Degree from Duquesne University in Pittsburgh, Gary chose to teach on the secondary and college level, which allowed him to have a tremendous impact by instilling in students his brand of motivation techniques and the importance of education.

For the next few years, Gary tirelessly pursued his dream in order to become a motivational speaker and entrepreneur. He gained experience speaking to people in need of credit management and created seminars on the subject. He also spoke to professional basketball workshop players about the sports management business and goal setting and achievement strategies.

Gary created Motivation for the World, which is the platform for his motivational speaking and writing. He is the proud author of two self-help books: Wake Up! 42 Ways to Improve Black America Now! and Rise Up! 42 Additional Ways to Improve Black America Now!
