

The Defining Success Project Workshop

Gary A. McAbee

The Defining Success Workshop is designed for people who expect that their dreams of being successful will become reality regardless of their current situation. Most people dream about being successful, but few are aware of the steps one must take to make dreams become reality.

Achievement is based on following a step-by-step plan to see positive results. The first step in this process is gaining an understanding of the meaning of success and its components. The Defining Success workshop presents each of these components, one success keyword at a time, to help people master the techniques of becoming successful.

To teach these principles, this workshop can be customized for your group to discuss any of Gary's defining success keywords. At the end of this workshop, the participants will be able to apply these success strategies immediately and see progress and results. Some of the concepts of this seminar include:

- | | | |
|-----------------------|----------------------|-----------------------|
| -Setting goals | -Seeking opportunity | -Developing character |
| -Finding your passion | -Creating luck | -Applying knowledge |
| -Overcoming fear | -Sharpening focus | -Becoming an expert |
| -Building enthusiasm | -Keeping integrity | -Achieving victory |

The Defining Success workshop is based on the concept of using success keywords...

This workshop teaches how to master some of the common traits of successful people who...

- have their own idea of success.
- are strategic planners and goal setters.
- hold on to their dreams at all costs.
- pay for success through hard work, commitment, and service.
- surround themselves with positive, like minded people.
- visualize and expect their success before it happens.
